BLUEBERRY CULTIVATION

CULTIVATIVE IN A MODERN BAG SUBSTRATE SYSTEM

OPTIMAL pH RANGE
(4.5 – 5.5)

**Maximize
your harvest with
Earthscape Coir
products**

TO CHOOSE EARTHSCAPE GROW BAGS & OPEN TOPS

01 | Pure Performance

Our sieved, dust-free coir ensures perfect aeration so roots don't just grow, they explode.

03 | Sterile Standard

Processed in closed-tunnel systems to guarantee zero weeds, zero pests, and zero pathogens. Just 100% pure substrate.

02 | Maximum ROI

With a strict 15-18% moisture level, you get more raw material per bag and faster expansion. More product, better value.

ALVETRA
GLOBAL SOLUTIONS
AGRICULTURE • FOOD MACHINERY • LOGISTICS • IMPORT/EXPORT
